Refer to The Realm of Caring Practitioner Portal for Applications, Dosage, Clinical Trials, Contraindications and Case Studies. <https://www.theroc.us/practitioner-portal>.

The Elixinol Hemp CBD (Cannabidiol) Oil and Liposomes are made from Industrial hemp plants organically grown in Northern Europe. These oils are cold processed using CO2 supercritical fluid extraction resulting in a solvent free, whole plant, pure extract Full spectrum Cannabinoid containing less than 0.2% Psychoactive Tetrahydrocannabinols (THC) as is found in Heat processed Medical Marijuana Hemp.

In Australia the Therapeutic Goods Authority (TGA) distinguishes:-

- A. **Industrial Hemp Cannabidiol (CBD)** prepared for External use containing less than 2.0% Tetrahydrocannabinols (THC) (psychoactive) do not need a prescription and can be purchased from any supplier. Case Studies are recommended. Use during a Remedial Massage or Reflexology Treatment.
- B.
- C. **Industrial Hemp Cannabidiol (CBD)** prepared for Internal or Therapeutic use containing less than 2% Tetrahydrocannabinols (THC) (psychoactive) are classified as a TGA Schedule 4 Entry requiring a prescription from an Authorised Prescriber under the Special Access Scheme. Food Stands Australia now classify Hemp CBD, Oil, seed and protein powder as a Dietary Supplement however we await State Law to implement this for Internal use. Case Studies are recommended.
- D. **Marijuana Hemp, Medicinal Cannabis with Tetrahydrocannabinols (THC) (psychoactive)** prepared for Internal or Therapeutic use containing more than 2% Tetrahydrocannabinols (THC) are classified as a TGA Schedule 8 Entry requiring a prescription from an Authorised Prescriber under the Special Access Scheme. State Law is currently being activated.
- E. **Alive Radiant Therapies Sells Elixinol** for external use in massage. However for Research and recommendations for internal dosage we refer you to the Global Research of The Realm of Caring. <https://www.theroc.us/research-library> and the Practitioners Portal <https://www.theroc.us/practitioner-portal>.
- F. **Elixinol Hemp Cannabidiol CBD** is not intended to diagnose, treat, cure or prevent any disease or any medical condition. The recommendations from the Medical Director can be treated as suggestions that should be considered by your licensed health care provider who has full consideration of your situation.
- G. **Trends in Pharmacological Services** has produced a clear summary of the research benefits of Cannabidiol (CBD) and Tetrahydrocannabinols THC psychoactive for External and Internal Therapeutic use to feed, boost and balance a person's internal Endocannabinoid System.
